Ref: ISOPE-2016 Rhodes Conference
Paper No: 2016-TPC-0256

Dear Prof. Yan,

As co-chairs of the ISOPE-2016 Rhodes Conference, we are pleased to invite you to present your paper and participate, at your expense, in the *26th International Offshore and Polar Engineering Conference (ISOPE-2016)* to be held in Rhodes, Greece, June 26-July 2, 2016. This conference will hold the world's largest technical program of its kind with peer-reviewed papers in this field. Technical Program Committee (TPC) members from 26 countries have assisted in organizing the Conference. The Conference is sponsored by the International Society of Offshore and Polar Engineers (ISOPE) in cooperation with 28 other major international societies and organizations. Following a peer review process, more than 700 peer-reviewed papers out of more than 1,350+ abstracts from 50 countries have been accepted for presentation as well as for inclusion in the Conference Proceedings. Please visit www.isopec.org for further information.

You are one of the well-known experts in this field, and your organization has been very active in this line of research or business. We believe that your participation in the conference will be essential and beneficial to the international technical and research communities.

On behalf of the ISOPE-2016 TPC, we would appreciate if your organization and the Embassy or Consular Office of Greece would expedite travel approval and entry visa issuance so that you can participate in time, allowing about a week beyond the conference dates for additional scientific visits.

Please note that the *27th International Offshore and Polar Engineering Conference (ISOPE-2017)* will be held in San Francisco, California, USA, June 25-30, 2017.

Truly yours,

Prof. Demos C. Angelides
 Co-Chair, ISOPE-2016 Rhodes Conference
